SEO Tools

[Google Alerts](#)

Enter a search term or domain (your website for example) that you wish to track and Google will notify you each time when it finds a new reference on the Internet

[Google AdWords Keyword Suggestion Sandbox](#)

If you want to run an Adwords you should consider Google's keyword suggestion tool. It will offer a bunch of similar keywords and thus help you optimize your ad spendings

[Google Suggest](#)

Start typing in the search query and Google will suggest similar search terms and tell you how many results you get for each term

[Google Sponsored links](#)

Do a search in Google and display sponsored link results only. Extremely useful when you are trying to find the proper wording for your Adwords or want to see how the competition is doing

[Overture's search term popularity tool](#)

Query Overture's database and find out how many search queries did a keyword get last month. Useful for selecting which keywords to target

[Touchgraph Google Browser](#)

Type in a URL and see which sites are related to it in a 3D graphic view. Requires Java

[Poodle Predictor](#)

See how your website description will look in Google results. Sometimes a bit inaccurate but useful when you want to tweak things a bit

[GooFresh](#)

Check the latest Google results for a query. For example by typing in your domain name you may find out if your latest page has been indexed yet
